

Yeast & Mold Media

Hach's yeast and mold media comes in a variety of types and packaging materials to suit your testing needs. Paddle testers allow simple and easy screening of samples, and are EPA approved for total coliform values with appropriate P/A bottles and media. Available products include mGreen, yeast and mold, and total aerobic bacteria. Yeast and mold products are rigorously tested for quality before leaving Hach's facility.

Part Number	Description	Quantity	Platform	Material	Platform	USD Price
